

6PK1140SF – 6PK1070+T38427

VAG 1.6 Diesel: CAYB & CAYC + Air-conditioning

Changes to VAG 1.6 diesel CAYB & CAYC engines affect models equipped with air conditioning, from October 2009 onward. Classic Multi-Ribbed V-belts replace earlier elastic belts.

For models from October 2009 onward, Gates recommends installation of belt 6PK1070 together with tensioner T38427. (Fig. 2 and 3)

The Gates range includes Stretch-Fit™ belts for earlier applications that have not yet been adapted. Installation instructions and details about the correct tools required are printed on the inside sleeves and are also available from the online catalogue. Fig. 1 shows part of the initial procedure.
