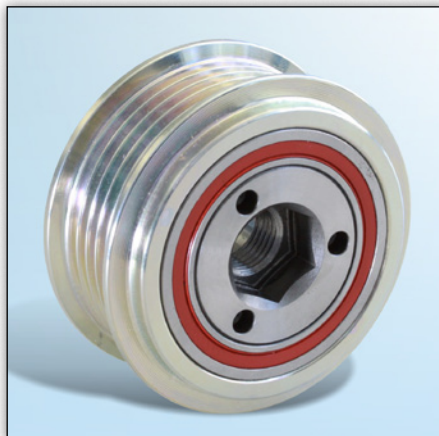

Image 1: First version

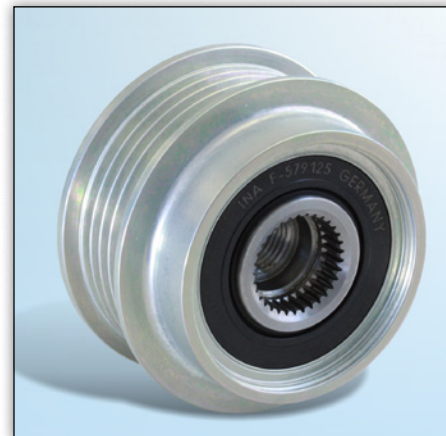

Image 2: Second version

The images show the two different versions of the overrunning alternator pulley 535 0199 10.

The key differences between the two versions are the bearing seals and the fixture for the special tool used for removal, testing and assembly.

Note:

Despite the different versions, the overrunning alternator pulleys can be used without restrictions for the vehicles specified in the catalogue.

Note the specifications of the vehicle manufacturer!

Appropriate spare parts can be found in our on-line catalogue at www.Schaeffler-Aftermarket.com or in RepXpert at www.RepXpert.com.
