

# Lüftersysteme

## Lüftermotor

# Fan Systems

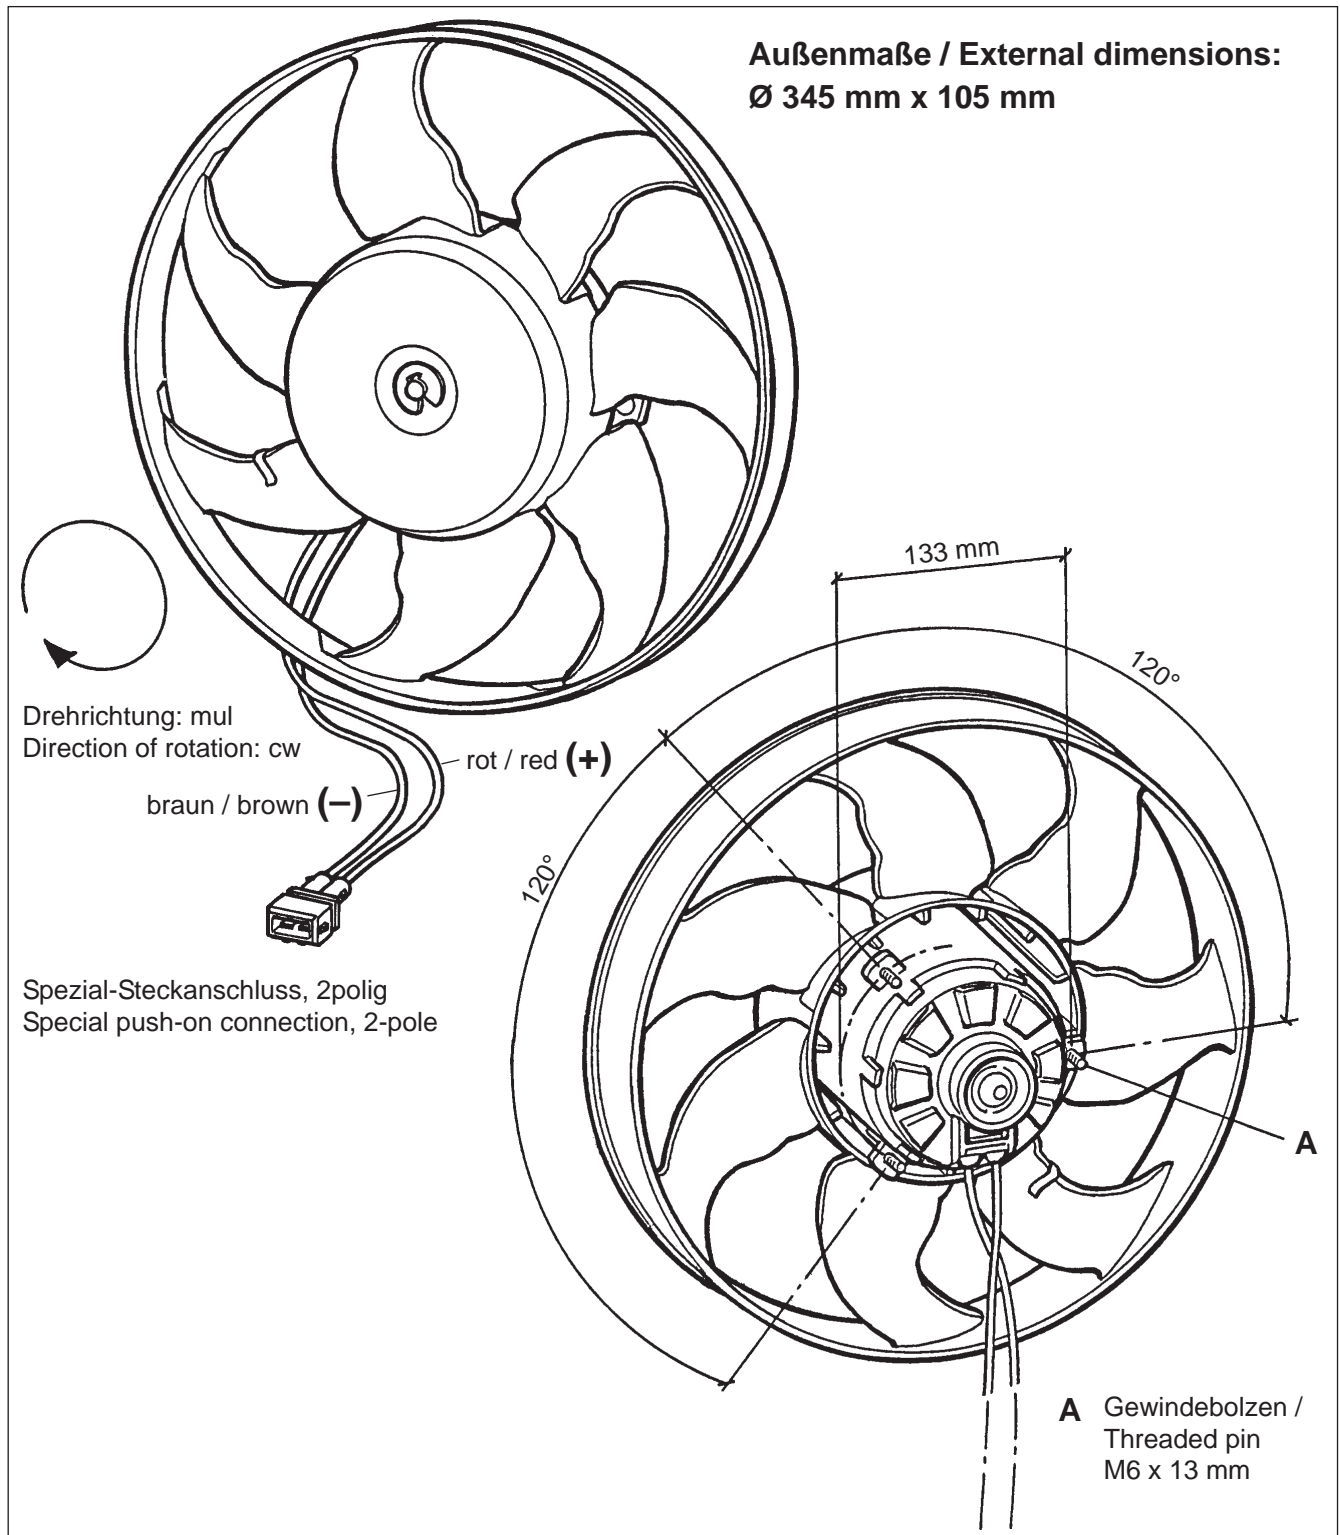

## Cooling Motor

### Technische Daten:

|                   |                              |
|-------------------|------------------------------|
| Betriebsspannung: | 12V                          |
| Stromaufnahme:    | 30 A max.                    |
| Nennleistung:     | 350 W                        |
| Umdrehung ± 10%:  | 3600 + 200 min <sup>-1</sup> |

### Technical Data:

|                      |                              |
|----------------------|------------------------------|
| Operating voltage:   | 12V                          |
| Current consumption: | 30 A max.                    |
| Nominal power:       | 350 W                        |
| Revolution ± 10%:    | 3600 + 200 min <sup>-1</sup> |

**Bestell-Nr. / Order No.: X10-742-002-003V**
